

TEMPLE MOUNT TOURS

Archaeologist Zachi Zweig will give you an unforgettable tour of the most spoken about location in Israel. A site that functions as a microcosm of the whole of Israeli existence, both mirroring it and influencing it.

The tour will take place in the Temple Mount compound and around it, and will address its different aspects: the significance and meaning of the location of the Temple, the history of the site, the archaeological remains that were revealed at the site and those that can be seen today, the archaeological destruction during the last century, the political forces at the arena and around it, and many more aspects. Emphasis will be given on the features that are of specific interest to each guided group.
